BRAIN INJURY HURTS...FOREVER Peer Support Mentoring Program

In partnership with OBIA this program connects individuals living with the effects of ABI with a partner who is trying to cope with a similar ABI-related situation and is in need of support from a peer. The program is available to survivors, family members or unpaid providers of care.

Mentor/Partner matches are based on similar experiences, demographics and personal interest. The program is offered through local brain injury associations (such as B.I.A.P.H.) all over Ontario, making it possible for people to participate wherever they live.

As a MENTOR you can help by sharing your experiences.

Mentors provide support and share information and resources with Partners who are coping with a similar ABI-related situation. Mentoring offers an excellent opportunity to help others during their recovery while learning new skills and making new acquaintances. All MENTORS are trained before being matched with a PARTNER.

As a PARTNER, you can learn from someone who has been there.

Help is available at every step of your journey on the road to recovery. Whether you're a survivor or a family member, you can be matched with a MENTOR at any time after injury. Your MENTOR can even help with situations that may arise many years after injury.

The Ontario Neurotrauma Foundation is in place to develop and oversee the program and the program's evaluation.

Through the generous support of the programs development sponsors (Gluckstein & Assoc., Henderson Structured Settlements and Sibley & Assoc.), training materials have been developed.

To participate, contact B.I.A.P.H.

YURI MUTIGER MEMORIAL RESPITE CARE PROGRAM

Yuri sustained a severe head injury in July 2000 as a result of a motor vehicle accident. At the time of his accident, he was a vibrant 20 year old man with a large circle of friends and family. Yuri passed away in May 2003 after a difficult struggle trying to come to terms with the devastating effects of his brain injury.

Today B.I.A.P.H.'s respite care program is funded through the YURI MUTIGER MEMORIAL RESPITE CARE FUND. Yuri's family and friends realized a need in the community for people with acquired brain injuries (ABI) and with initial funds coming from the annual GOLF4YURI Tournament they made a difference. Currently the program brings services to families who are primary caregivers to individuals with an ABI. Families are able to apply for limited respite care hours to be supported through this fund.
