

interact-ABI-lity

Learn how to interact successfully with people who have a brain injury

A team of researchers and speech pathologists has developed **interact-ABI-lity** – a communication skills course for anyone who interacts with a person with an acquired brain injury (ABI).

This **free online course** is for family members, friends, support workers, and professionals working in brain injury.

- **Hear from people** with a brain injury and their family members
- Learn about **communication changes**
- Learn how to **support people** with their communication
- Gain a **certificate** of course completion

Access the course at:
bit.ly/interact-ABI-lity

Scan this QR code with your camera and follow the link to the course

The Social Brain Toolkit project is funded by icare NSW.

This research project has been approved by the Western Sydney Local Health District Human Research Ethics Committee.
