

ABI Support Groups Meeting Schedule

Survivors and Caregivers Weekly Meetings

Our weekly support group for brain injury survivors and caregivers meets every Tuesday from 7:00 PM to 8:30 PM (end time may vary). Meetings are held both in-person at community locations and online via Zoom. To participate, please register via the weekly email, and you'll receive a meeting link or phone access details. Registration is required to ensure you receive any updates. New members are always welcome—contact us for more information. For questions or inquiries, call 905-823-2221 or email supportgroups@biaph.com.

November 2024

05

NOVEMBER
7-9 PM
IN PERSON

Frustrated with your progress? Want to do more for yourself but don't know what else you could do? Increase your knowledge and empower yourself to make educated rehabilitation decisions for yourself inside and outside the clinics. Know YOUR rehab journey better.

Nancy Oliveri, DOMP
Osteopathic Manual
Practitioner

Nancy Oliveri, registered Kinesiologist and concussion thriver - not just a survivor. She has had a career in therapeutic exercise as a kinesiologist, owned/operated MVA multidisciplinary assessment centers, developed return-to-work programs for LTD insurance and completed a degree in Osteopathic Manual therapy where she piloted research on osteopathy for tension headache post mild and moderate traumatic brain injury.

Having sustained several head injuries playing high level sports she understands the level of frustration, disappointment and dissatisfaction with health care and insurance. Her patients have continually motivated her to share her knowledge so that not only other patients, but other rehab professionals could also benefit from her unique level of education, experience and practical understanding in the cranial field.

Mitchell Mosenberg

My Home Safety & Accessibility Assessment has been used by Lawyers in Canada & The USA to successfully settle Personal Injury and MedMal cases and to ensure the claimant is able to live in Safe & Accessible Homes, designed to meet their needs, based on their functional requirements resulting from an acquired injury/disability. I have been assessing, designing, building and modifying homes for people with disabilities for over 30 years.
