Message From Our Board of Directors

Dear BIAPH Community,

As we reflect on the 2025–2026 year, we are proud of the meaningful progress the Brain Injury Association of Peel & Halton (BIAPH) has made in strengthening support for community members living with acquired brain injury (ABI), their care partners, and the broader community. This year has been one of collaboration, innovation, and continued commitment to ensuring our programs and services respond to the evolving needs of those we serve.

A defining achievement this year has been our commitment to co-designing programs with members. This collaborative approach laid the groundwork for Creative Corner, an accessible arts-based program for people living with acquired brain injury. Supported through the Hazel McCallion Fund for Arts, Culture and Heritage and developed in collaboration with local artists and community organizations, Creative Corner represents an exciting new direction that brings together creativity, connection, and community participation.

BIAPH also received support from the Halton Region Community Investment Fund for a comprehensive community needs assessment and the development of the virtual LearnHUB resource platform. This project will help BIAPH better understand the intersecting needs and barriers experienced by people living with ABI and their caregivers, while improving access to reliable, evidence-informed information and resources. Through community-engaged research, participant-informed program development, and ongoing evaluation, we are ensuring that lived experience remains at the heart of our decision-making. By listening to and collaborating with our members, we are building programs and services that are more responsive, inclusive, and impactful while helping shape the future of BIAPH.

As we look ahead, we remain committed to increasing access to quality programs and advocating for the needs of individuals and families affected by brain injury. We believe meaningful change is achieved through collaboration. By fostering meaningful partnerships and creating opportunities to learn from one another, we will continue fostering an inclusive, connected community where every person affected by brain injury has the opportunity to access quality support, build meaningful connections, and thrive.

On behalf of the Board of Directors, thank you for your continued trust, generosity, and commitment to BIAPH. Your support makes this work possible, and we are grateful to have you as part of our community.

With gratitude,

Board of Directors
Brain Injury Association of Peel & Halton

About Us

The Brain Injury Association of Peel & Halton (BIAPH) is a registered charity dedicated to supporting individuals living with acquired brain injury (ABI), along with their families and caregivers. We provide tailored programs, peer support groups, and community resources designed to reduce isolation, build resilience, and improve quality of life. Beyond direct support, BIAPH works to raise awareness about brain injury prevention and advocates for greater accessibility and equity in services. Through research, education, and collaboration with community and healthcare partners, we strive to create a more inclusive and supportive environment for the ABI community.

Our Mission

Our mission is to enhance the quality of life for persons in the region(s) of Peel and Halton who are living with the effects of an acquired brain injury through: **education, awareness and support.**

Our Vision

We strive for BIAPH to be recognized as a gateway to: **resources, prevention, leadership, support, and inclusive programs.**

Our Board of Directors

BIAPH is guided by a dedicated Board of Directors who lead with integrity, compassion, and a strong commitment to our mission. Their collective expertise and lived experiences shape our strategic direction, ensuring that our programs and services reflect the evolving needs of the ABI community. The Board plays a vital role in strengthening community partnerships, advancing advocacy efforts, and safeguarding the sustainability of our organization. Through their leadership, BIAPH continues to foster resilience, raise awareness, and provide unwavering support to individuals living with acquired brain injury, their care partners, and loved ones across Peel and Halton.

Our Team

Our team consists of individuals from diverse disciplines and skills, who approach BIAPH's mission with empathy and a strong drive for advocacy. Throughout their time at BIAPH, each team member has played a significant role in ensuring our support programs are quality-driven, member-focused and are aligned with the specific needs of our community.

Sarah Hurtubise
Support Group Facilitator

Welcome, Sarah Martin and Suweyda Ugas!

This year, we welcomed Sarah and Suweyda and they have already made a remarkable impact. Sarah has experience supporting individuals with ABI in both clinical and community settings, working closely with speech-language pathologists and interdisciplinary teams. Suweyda completed her Master of Social Work at the University of Toronto and has a background in nursing. Members can expect to hear from Sarah and Suweyda often as they work together to strengthen our programs.

Youth Engagement Team (Volunteer Program)

Dear BIAPH Community,

We're proud to share the 2025–2026 Annual Report for the [Youth Engagement Team](#) (YET)—a year marked by exciting growth, collaboration, and impact.

In 2025–2026, we expanded our reach through multiple events at the University of Toronto Mississauga (UTM) and successfully launched the Brain Injury Club at UTM, creating a dedicated space for student engagement, education, and advocacy surrounding brain injury awareness. We also laid the groundwork for the continued growth of the club and chapter in the years ahead.

Through our [MindMatters blog](#), we published an additional 10 educational infographics this year to increase awareness and share evidence-informed information about acquired brain injury. We also launched a new ABI-focused podcast team, filming six podcast episodes that are scheduled to be released in Fall 2026, further expanding our education and advocacy efforts.

This year also marked the launch of our Sponsor a Survivor campaign. Through this initiative, members of our Community Engagement Team each sponsored a brain injury survivor by creating personalized social media posts and survivorship cards, which were shared across platforms such as Instagram and LinkedIn to raise awareness, amplify survivors' voices, and share their stories with the broader community.

Thank you to our dedicated volunteers and the BIAPH community for your ongoing support. We look forward to another year of meaningful engagement and impact.

Key Aspects of BIAPH's Support Groups:

- 1. Social Connection & Peer Interaction:** Support groups foster meaningful peer connection, reduce feelings of isolation, and receive emotional support.
- 2. Knowledge Sharing & Education:** Educational content and guest speakers provide practical knowledge, coping strategies, and information about available resources.
- 3. Flexibility & Accessibility:** Virtual and hybrid delivery models improve accessibility by reducing barriers related to transportation, geography, health, caregiving responsibilities, and scheduling.

Become a Member & Join Our Community

Are you part of the ABI community or interested in connecting with peers? BIAPH's support groups offer a safe, welcoming space to share experiences, discuss common challenges, and learn strategies for living with ABI. Meetings feature peer connection, professional insights, and opportunities for social and recreational activities. Join us for a session and see if it's the right fit for you.

Membership Options

Enjoy your first three meetings for free—discover if it's the right fit for you!

Standard Membership Fee: \$5/month or \$50/year

Alternative Membership Option:

If financial challenges make it difficult to pay the membership fee, you can join through our Stories of Strength Fundraiser. Share your story, and fundraise the cost of your membership while inspiring others in our community.

Ripple Effect of Support: Any funds raised beyond \$50 will be used to help brain injury survivors access memberships, creating a positive impact for others in need.

Stories of Strength Fundraiser: Increasing Access to Programs & Services

Stories of Strength is BIAPH's initiative that invites people living with ABI and care partners to share their personal journeys. These stories foster deeper understanding and empathy, while raising awareness about the challenges faced by the ABI community. By donating to this campaign, supporters help transform powerful stories into meaningful impact—funds raised go directly toward expanding access to BIAPH's support groups. Every contribution ensures that survivors and families have a safe space to connect, heal, and build resilience. Together, we can turn stories of struggle into stories of hope, strength, and community.

#HearMyStory

My, and my family's initiation to the world of TBI (Traumatic Brain Injury) began the morning of August 15, 2013 when I was struck by an SUV riding my motorcycle to the office. Fortunately, 30 years riding experience and instinct contributed to saving my life. However, the life altering events were underway, and I was oblivious to what my family had to endure. BIAPH has been instrumental to my, and now many friends, whom I've met through BIAPH, to our ongoing challenges in recovery. [More](#).

Sponsor a Member Today

By supporting Stories of Strength, you help ensure that survivors and caregivers have continued access to vital programs, resources, and peer support. Your generosity turns lived experiences into powerful change—helping BIAPH build a stronger, more resilient ABI community.

Support Programs and Services

ABI Survivor & Caregiver Support Groups

Our weekly ABI Support Groups provide a safe, inclusive space for survivors and care partners to share experiences, build connections, and access expert guidance. In 2026, we had a mix of discussion-based peer support groups and guest speaker lectures covering a wide range of topics.

By blending peer support with professional insight, these groups increased peer connection, provided education, and provided participants with the tools and resources to navigate life after brain injury.

“

It's been several years since we began our caregiver/survivor journey together. [...] The physical wounds and brain injury still exist and we have both been hospitalized more than once in the past couple of years. Once I stabilized my own health and emotions I was able to begin to focus on the relationship between the two of us and to raise our level of communication, caring, lifestyle and intimacy between us to become a team. This was possible because of the educational seminars, caregiver tools workshops and feeling of community provided by BIAPH. Our lives matter. Even though my spouse doesn't participate in the in-person and online programs, he benefits every day from my participation in them.

”

“

I find the Caregiver groups very validating and supportive. Good speakers on topics I want to learn about. Highly recommend the Caregiver Group.

”

Support Programs and Services

Headspin: Young Adult Support Group

Headspin fosters belonging and social connection for young adults aged 16 to their late 30s through engaging, member-driven activities. Members explore new interests through activities such as art, comic creation, nature-based experiences, trivia, and bowling. Facilitators with diverse backgrounds mentor participants, helping them build friendships, skills, and confidence.

Through these initiatives, Headspin reduces isolation, supports skill development, and strengthens community connections for youth with acquired brain injuries.

Support Programs and Services

Creative Corner: Art-Based Program for Individuals with Acquired Brain Injury

Many individuals living with ABI experience physical and cognitive changes that can make returning to creative hobbies challenging. In our upcoming 2026-2027 season we'll be launching **Creative Corner**, an art-based program developed for individuals living with ABI. Creative Corner provides a safe, welcoming, and accessible environment where participants can rediscover artistic expression, build confidence, develop new skills, and connect with others who share similar experiences.

BIAPH extends our sincere gratitude to the **Mississauga Foundation** for its generous support through the **Hazel McCallion Fund for Arts, Culture and Heritage**.

This funding has made it possible to launch Creative Corner and develop partnerships with local artists and community organizations. Through collaborative, community-based programming, Creative Corner is more than an arts program, it is an opportunity to support healing, rebuild identity, and foster belonging through creativity.

 **Mississauga**
FOUNDATION

Support Programs and Services

Caregiver Relief Program

The Caregiver Relief Program supports families and primary caregivers of individuals living with an acquired brain injury (ABI) by providing flexible, in-home assistance tailored to each family's needs. Participants receive up to four hours of Personal Support Worker (PSW) services each week for 12 months, helping reduce the daily demands of caregiving while ensuring quality care for the survivor.

By offering consistent, dependable support, the program helps prevent caregiver burnout, promotes stability at home, and enhances the well-being of both survivors and caregivers.

Services offered include but may not be limited to:

- **Attendant Care** — Personal care, household tasks, and in-home supervision to give caregivers time to rest or manage other responsibilities.
- **Community and Social Support** — Assistance with transportation, community programs, and recreational or therapeutic activities to promote inclusion and quality of life.

Photobook

Unheard Voices of Care: Stories of Caregivers in Diverse Communities

Beginning in 2023, BIAPH launched a research and storytelling initiative to bring forward the lived experiences of ABI survivors and caregivers from diverse communities through this dedicated photobook. Despite the significant diversity across Peel and Halton, our program data indicated that families from ethnic minority communities were underrepresented among Caregiver Relief Program participants. This project allowed us to build stronger connections with these communities and better understand how to make our supports more accessible and inclusive.

We express heartfelt gratitude to all contributors and acknowledge the Ontario Trillium Foundation for their generous support. We thank ABI survivors, their families, and caregivers for sharing their experiences and providing unwavering support.

Un organisme du gouvernement de l'Ontario

Support Programs and Services

Peer Support Program

Our Peer Support Program connects individuals living with ABI with trained mentors who share similar experiences. These mentors provide emotional support, share valuable knowledge, and guide participants facing related challenges. This program, coordinated by the Ontario Brain Injury Association and run in partnership with local brain injury associations across Ontario, fosters a supportive community empowering ABI survivors on their journey.

Grants and Funded Projects

**ONTARIO
BRAIN
INSTITUTE** **INSTITUT
ONTARIEN
DU CERVEAU**

Program Evaluation Project

With support from the Ontario Brain Institute's GEEK grant, BIAPH is building long-term evaluation capacity to strengthen our support groups, reduce isolation, and better serve diverse ABI communities.

[GEEK Recipients](#)

We're proud to be named a **2025 GEEK** recipient by the **Ontario Brain Institute!** With this support, BIAPH is enhancing how we evaluate and deliver programs for individuals with acquired brain injuries (ABI) and their caregivers in Peel and Halton.

Through this project, survivors and caregivers will guide the process via a dedicated advisory committee. Together, we will measure outcomes such as reduced isolation, improved coping skills, and stronger peer relationships, while identifying emerging needs—particularly within rural and culturally diverse communities.

This initiative builds BIAPH's long-term evaluation capacity, ensuring our ABI Support Groups can grow, adapt, and demonstrate impact for years to come.

To learn more about our Research, please visit our website:

<https://biaph.com/research/>

Grants and Funded Projects

We are grateful to receive support from the **Halton Region Community Investment Fund** to advance our understanding of the needs of individuals living with acquired brain injury (ABI) and their caregivers. This investment is supporting a comprehensive needs assessment and the development of BIAPH's virtual LearnHUB resource platform. Together, these initiatives will help guide the future of BIAPH's programs, services, and educational initiatives.

This initiative advances BIAPH's 2025–2028 strategic priorities by strengthening sustainability, enhancing quality, and building capacity. It represents an important step in expanding BIAPH's research and evaluation capacity to drive continuous improvement. By collecting meaningful data on the co-occurring challenges and comorbidities experienced by individuals living with ABI, we are identifying the prevalence of these conditions, exploring barriers to accessing appropriate supports, and examining how these intersecting challenges influence recovery, participation in community life, and overall well-being.

The knowledge gained through this project will strengthen BIAPH's ability to deliver evidence-informed, person-centred resources while fostering stronger partnerships across the healthcare and community sectors. Findings will inform the development of educational resources, expert guest speaker presentations, and BIAPH's LearnHUB resource platform, helping improve access to reliable information and support for individuals living with acquired brain injury, their families, and the professionals who serve them.

Grants and Funded Projects

CANADA SUMMER JOBS GRANT

This funding supported BIAPH through the recruitment of two Business Development Officers. Their contributions have elevated youth involvement and played a key role in driving impactful and positive change within our community.

Government
of Canada

Gouvernement
du Canada

RESILIENT COMMUNITIES FUND

As part of our long-term community engagement and program expansion, this funding supported a pilot of the adapted Caregiver Relief Program and the development of a photobook documenting the daily experiences of ABI caregivers. With a focus on improving access for marginalized families in Peel-Halton, the project emphasized outreach to the region's top language groups.

An agency of the Government of Ontario
Un organisme du gouvernement de l'Ontario

Grants and Funded Projects

PETRO CANADA CAREMAKERS FOUNDATION

This funding supports the expansion of BIAPH's Caregiver Support Group guest speaker sessions by increasing opportunities for caregivers to learn from healthcare professionals and subject matter experts on topics relevant to caregiving and acquired brain injury. The funding also supports the co-development of caregiver educational resources, which will be made available on our website to improve ongoing access to reliable information and support beyond scheduled sessions.

THE HAZEL MCCALLION ARTS, CULTURE AND HERITAGE FUND

This funding is supporting the expansion of BIAPH's art-based sessions through collaborations with local artists and community organizations to develop engaging and accessible workshops to community members living with ABI. The program will offer structured workshops in pottery, painting, and mixed-media, and more. Workshops will provide participants with opportunities for creative expression, skill development, social connection, and community engagement in a supportive and inclusive environment.

Our Research

Mind Matters Blog

Managed by our Youth Engagement Team volunteers, MindMatters is BIAPH's youth-led blog dedicated to fostering awareness, resilience, and practical support for individuals navigating life with an acquired brain injury (ABI). The blog transforms clinical research into relatable, practical content—from recovery tips and daily coping strategies to reflections on lived experience—making ABI knowledge accessible to community members living with ABI, care partners, educators, and allies alike.

Our blog posts cover a wide range of topics, from:

- Neuroimaging in ABI diagnosis
- Long-Term Risks After TBI
- Imaging techniques
- Health Issues in ABI survivors
- Leisure Activities
- Brain Injuries & DNA
- ABI drug comparison
- Pharmacological Interventions
- Which drug is right for you?
- School success after ABI
- Managing changes after ABI
- Mindfulness & Cognitive Health
- Supported Community living
- Virtual Support Programs
- Diversity & Rehabilitation in ABI
- Families & ABI
- Supporting our Caregivers
- Fueling Recovery

each addressing important challenges and questions faced by the ABI community. Grounded in research and tailored for real life, articles, that draw on peer-reviewed studies to provide readers with clear, practical insights they can apply in their everyday lives.

Our Events

29th Annual Holiday Party

On November 27, 2025, we joyfully marked a major milestone, our 29th Annual Holiday Party!

Since 1996, this beloved gathering has united community members living with ABI, their care partners, families, and supporters in celebrating the season and the incredible resilience of our community. The evening was a wonderful opportunity to reflect on the achievements of the ABI community and the meaningful strides BIAPH has made throughout the year, none of which would be possible without the unwavering generosity of our sponsors and partners.

We are truly thankful to all who came together to make this celebration one to remember. A heartfelt thank you goes out to our corporate partners, whose remarkable dedication and continued investment in BIAPH play a vital role in sustaining and growing our programs and services. Every dollar raised at this event goes directly to BIAPH's Support Programs, ensuring that brain injury survivors and their loved ones have access to the resources and support they need.

To view photos from the event, please visit the link below:
biaph.pixieset.com/2025holidayparty/

29th Annual Holiday Party

Thank you to our sponsors for making BIAPH 2025 Holiday Party possible!

BIAPH's 29th Annual Holiday Party was a celebration made possible by the generosity of our corporate partners. Their continued investment and belief in our mission allowed us to bring together community members living with ABI, their care partners, families, and supporters for an evening honoring the resilience of the ABI community.

We are profoundly grateful for the partnerships that sustain our work year-round. Every dollar raised at this event goes directly to BIAPH's Support Programs, giving brain injury survivors and their loved ones access to the resources and support they need. That impact exists because our corporate partners chose to invest in our community — not just for one night, but for the long term.

A special thank you to all our corporate partners and event sponsors for your generosity, your commitment, and your partnership. You make our mission possible.

Our Events

20th Annual Bowl-a-thon

On February 24, 2026, BIAPH hosted our 20th Annual Bowl-a-thon at Classic Bowl Mississauga, bringing together 20 enthusiastic teams for an evening of fun, connection, and community support. Participants laced up their bowling shoes and proudly wore their team jerseys as they came together to raise awareness and funds for community members affected by acquired brain injury.

Thanks to the incredible generosity of our attendees, sponsors, volunteers, and supporters, the event was a striking success, helping BIAPH continue to provide essential programs, services, and resources for community members living with acquired brain injury, their care partners, and families across Peel and Halton.

Fundraising Gladiators

Fundraising Gladiators

The Fundraising Gladiators initiative is an exciting, community-driven platform that gives passionate individuals the opportunity to raise funds in creative ways for BIAPH's free support programs and services. Whether you host events, launch an online fundraiser, or run a marathon, every dollar you raise helps brain injury survivors on their journey to recovery and independence.

- **Personalized Webpage & Social Media Promotion:** You will receive a customized webpage on our Gladiators page, highlighting your commitment to supporting the brain injury community. This is paired with strategic social media shout-outs across our platforms, ensuring your story reaches a broad and engaged audience.
- **Premier Recognition for Raising \$5,000:** Unlock premier recognition and exclusive experiences. You'll be invited to our Partner Appreciation Cocktail Hour, held before major events like the Holiday Party and Bowl-a-thon, where you can network with top supporters and stakeholders while celebrating your impact.
- **Elite Recognition for Raising \$10,000:** Achieve the \$10,000 milestone and be invited to speak at BIAPH's Holiday Party, with a reserved table of 8 for your team. Additionally, you'll receive a designated lane for your team at the Bowl-a-thon, offering a fun and engaging opportunity for visibility.
